

Jed L. Hizon
AN41

The screenshot displays the KNIME Analytics Platform interface. At the top, there's a navigation bar with 'Home', 'Webtool', and a '+' icon. Below this, a toolbar contains 'Save', 'Execute', 'Cancel', and 'Reset' buttons. The main workspace is divided into three panes:

- Left Pane (Nodes):** Contains a search bar and a list of node categories: 'Excel Read', 'Google Authentication', 'CSV Read', 'Manipulation', 'Row Filter', 'Value Link', 'String Clear', 'Views', 'Bar Chart', 'Stacked Bar Chart', 'Heatmap', and 'Histogram'. The 'Excel Read' node is selected.
- Center Pane (Table View):** Displays a table titled 'Confusion matrix (Table)'. The table has 2 rows and 2 columns: 'Not At Risk' and 'At Risk'. The data is as follows:

	Not At Risk	At Risk
Not At Risk	3	0
At Risk	0	3
- Right Pane (Workflow):** Shows a workflow diagram. It starts with a 'Scorer' node, followed by a 'Logistic Regression Learner' node, then a 'Logistic Regression Predictor' node, and finally another 'Scorer' node. A 'Forest Learner' node is also present at the bottom.
- Far Right Pane (Settings):** Contains a 'Scorer' configuration panel with options for 'First column' (Prediction (risk_status)), 'Second column' (risk_status), 'Sorting strategy' (Insertion order), and 'Missing values' (Ignore, Fail).
